US Architect of the Capitol

Scope of Services

Architect of the Capitol Perimeter Security Contract

Conti was awarded a Design-Build IDIQ Contract by the Architect of the Capitol to perform perimeter security upgrades at Senate and Congressional facilities on and around Capitol Hill.

The Scope of Work is Design-Build Services including: Installation of government furnished decorative bollards, concrete foundations for bollards, vehicular barriers, hardened police shelters with ballistic glazing, planters (concrete structures with stone cladding and masonry), masonry and/or stone walls, sidewalk work, tree pits with trees, ground cover plantings, street lighting, irrigation, curb & gutter work, utility relocation work and electrical duct banks at designated locations throughout Capitol Hill. Our Team Subcontractors are: PBS&J - Chantilly, VA; Vanderweil Engineers - Alexandria, VA; and WDG Architecture - Washington DC.

Description of Projects

As of August of 2005 two contracts totaling more than \$5 million dollars have been awarded, both to Conti. The first contract is a Perimeter Security Hardening of the Capitol Power Plant and the second is the Perimeter Security Hardening of the Ford Office building. Both projects consist of cityscape hardening including: bollard, automatic vehicle barrier, and security booth installations and utility, streetlight, tree and planter relocation and installation.

Programs

Environmental Services – Widely recognized for award-winning quality work, Conti has completed hazardous environmental remediation and construction projects for over 25 years. Our dedicated, skilled employees are supported by the most modern management information systems, enabling us to complete projects quickly, safely, and within budget. Our work ethic stresses quality in every aspect, and we consistently exceed our customer's expectations through exceptional responsiveness, proactive project tracking and reporting, and innovative cost saving strategies and execution.

Corporate Profile

- ◆ 99-year history in construction with 25 years of successful environmental project performance
- ◆ Prime contractor for government ID/IQ programs with FFP and CR construction and remediation Tos
- ◆ Bonding capacity of \$100M/project with \$300M aggregate
- ◆ Extensive experience working at airports, at air terminal facilities, and runways
- ◆ Audited, FAR-compliant financial, procurement, and management control systems

Civil Construction Services – Conti provides clients with high quality, cost-competitive construction services. Our diverse capabilities are broad-based and proven. We provide one-stop construction management and direct build services to clients using our in-house resources, augmented when needed by high-quality strategic partners. Conti projects cover the spectrum from small to large, ranging from foundations and site work to airport runways, power plants and extensive underground fiber optics systems.

Integrated Security Solutions – Security in our homes and in our workplaces can no longer be taken for granted. We - whether we be speaking of individuals, or public institutions, or private businesses - must do everything we can to protect and preserve not only the well being of ourselves and those whom we hold dear, but also our livelihoods, our employees, our infrastructure, our prosperity, and our freedom to enjoy life without giving in to terror. Conti can help you ensure that you are doing everything possible to defeat any potential security threat and to mitigate the effects of any incident, be it caused by intent, accident, or extreme of nature. Our integrated approach allows for the swift hardening of your physical security profile as well as allowing for tighter control of confidential security information. To meet your growing security needs, we have harnessed our high performance standards and solutions to offer private and public sector clients state-of-the-art turnkey security and Anti-Terrorism solutions.
